Delivered in Live or Live Virtual Classrooms!*

Course Description:

This leadership assessment program assesses essential leadership competencies that your managers, supervisors, and team leaders need to master to thrive in today's dynamic and rapidly changing government work environment. Participants of this program begin with a 360-degree survey process specifically designed to assess and provide personal insight into the behaviors and professional habits of each participant. This process yields a personalized report on how each leader's behaviors are perceived by those around them, peers, supervisors and employees. The privately provided individual reports form the foundation for a week of assessment-based learning, self-observation, and training that provides an in-depth look at how personal behaviors affect workplace interactions.

The program continues with coaching, facilitation, small group interaction and professionally led discussions that are designed to help each leader understand how to conduct self-assessments, adjust behaviors based upon increased emotional intelligence, and give participants new insights to create a personal learning plan for continued leadership growth and development.
