

Project Management Foundation

*A 1-Day Hands on TMS Experience
Delivered in Live or Live Virtual Classrooms!*

Course Description:

Designed to provide an overview of the terms, tools, and techniques of project management (PjM). Introduces traditional (Waterfall), agile (Scrum), and European (Prince2) methodologies and compares the strengths and weaknesses of each approach. Well suited to newly appointed supervisors and those starting an education in the P3 environment.

Learning Objectives & Topics Covered in this Workshop:

- Define and differentiate between Waterfall, Scrum, and Prince2 methodologies, and for each system list the core PjM outputs (artifacts)
- Explain how to manage scope
- Understanding cost control methods
- Describe phases or decision gates
- Explain the benefits and challenges involved
- Understand common PjM certification standards
- Give examples of how your organization can improve
- Identify tools used in the various stages of PjM

Audience:

This workshop is designed for all government personnel.

Toolkits:

Receive a **Student Handbook** and **Online Toolkit**, containing tools such as checklist, tips, techniques, and numerous other tools to help you use your new skills immediately.
