Collaborative Approaches for Modern Challenges

A 2 or 3-Day Hands on TMS Experience
Delivered in Live or Live Virtual Classrooms!

Course Description:
The complex challenges of today's government environment demand collaboration across departments and agencies. This workshop introduces participants to coalition-building strategies that enhance teamwork and foster seamless collaboration. Through case studies and dynamic group activities, attendees will learn how to break down silos, build trust, and drive collective success in solving modern challenges.

Learning Objectives & Topics Covered in this Workshop:

- Distinguish between effective & ineffective leader behaviors. Identify barriers to effective collaboration in government settings.
- Develop strategies to foster trust and teamwork across departments.
- Build coalitions that drive meaningful and sustainable outcomes.
- Utilize conflict resolution techniques to address collaboration challenges.
- Design and facilitate productive interdepartmental meetings.
- Apply best practices for virtual and in-person collaboration.
- Align team efforts with overarching organizational goals.
- Leverage diverse perspectives to innovate and solve problems.
- Create a culture of shared responsibility and accountability.
- Evaluate the success of collaborative initiatives through measurable outcomes.

Audience:
This workshop is designed for all government personnel.

Toolkits:
Receive a Student Handbook and Online Toolkit, containing tools such as checklist, tips, techniques, and numerous other tools to help you use your new skills immediately.
